

**Office Sought:** Attorney General of Maryland

**Candidate's Name:** Anthony G. Brown

**Current Occupation:** Attorney General of Maryland

**Party:** Democratic

**Campaign Contact Information:** info@anthonybrown.com

**1.**

As the son of a Jamaican immigrant, I understand the importance of staying connected to Caribbean-American communities. I will continue meeting regularly with community organizations, faith leaders, advocacy groups, and small businesses to ensure their voices are heard and reflected in policy, outreach, and enforcement priorities.

**2.**

My office will continue protecting immigrant communities from fraud, discrimination, wage theft, housing discrimination, and consumer scams. I support strong outreach and partnerships that help Caribbean immigrants better access healthcare, education, legal services, and public programs without fear or unnecessary barriers.

**3.**

Culturally responsive government begins with listening, representation, outreach, and accountability. I support language access, implicit bias training, community engagement, and partnerships with trusted local organizations to ensure agencies provide fair and effective services to Caribbean-American residents.

**4.**

I will continue supporting enforcement against wage theft, worker exploitation, predatory lending, and unfair business practices. I also support expanding access to state contracting opportunities, technical assistance, and small business resources that help Caribbean-American entrepreneurs grow and succeed.

**5.**

Every child deserves equal opportunity regardless of background or language spoken at home. I support strong language-access services, parent engagement, and efforts to ensure Caribbean-American students and families can fully access educational opportunities, counseling, and school support systems.

**6.**

I support partnerships between government, healthcare providers, and trusted Caribbean-American organizations to expand awareness around mental health, chronic disease prevention, and wellness resources. Effective outreach requires culturally competent communication and trusted community-based relationships.

**7.**

Building trust requires transparency, accountability, and fair treatment under the law. As Attorney General, I have supported constitutional policing, civil rights enforcement, and independent oversight efforts to strengthen public confidence while protecting the safety and rights of all communities.

**8.**

I will continue supporting policies and investments that expand economic opportunity, protect consumers, improve public safety, strengthen educational access, and address health disparities. Caribbean-American communities should have a seat at the table when decisions are made that affect their families and neighborhoods.
